Electronic Security Donations — If your securities are held within a brokerage account, you can donate electronically. We would request that you call or email to inform us of the transaction (name of security and number of shares) so we can notify our Broker to be expecting it. You can then execute your donation by instructing your Broker to transfer the securities as follows:

Wells Fargo Advisors

Account Name: Solar Cookers International
Account Number: 2185-5409
DTC Number: 0141
Contact: Mr. Hayward or Mr. Baker
(800) 400-1177

The Donor Letter of Intention can then be submitted via U.S. Mail to:

Rene Hamlin
Resource Development Coordinator
Solar Cookers International

Mutual Fund Donations — As there are various methods of transactions required to obtain funds from mutual fund accounts, we request that you contact Rene Hamlin before making a mutual fund donation. She will be able to assist you with any such transaction. Often a mutual fund company will require that an account be established in the name of the donation recipient, in this instance Solar Cookers International. We request that you do not attempt to establish such an account without our involvement as it may complicate the actual receipt of the funds in donation. Please note that mutual fund donations experience a longer processing time, so keep this in mind when donating at the end of a calendar year or fund raising cycle.

THANK YOU FOR YOUR KIND GENEROSITY
